Can I respond to Ex. 6 - Personal Privacy with the following reply?

Hello Ex. 6 - Personal Privacy

# Ex. 5 - Deliberative

Sincerely.....

Trish Taylor, Community Involvement Coordinator

Hi Ms. Taylor. Hope you are having a nice day. I'd like to ask you a question. Can you please tell me why or how much longer the litigants are going to be given water? If our water is fine and we've been using it for approx. 1 1/2 yrs (w/ the treatment system) and on the video it seems the only thing the litigants have is bacteria which they can fix themselves why do they continue to be catered to? Our family has been placed in a very difficult position and it seems that giving these people water continues to make things worse for us. We never asked to be stuck in the middle of all of this (we wanted our water fixed) however we seem to be in a very uncomfortable spot.

Thank you for your time and have a nice day,

Ex. 6 - Personal Privacy

Hello Ex. 6 - Personal Privacy

I've heard about the video, but thank you for forwarding the link. Regarding EPA's video, please note we are currently considering whether to release it publicly.  
I also wanted you to know that EPA has discussed specific well sample results only with the individuals using that specific well.

I appreciate you kind words.  
Thank you again,

Trish Taylor, Community Involvement Coordinator

Hi Ms. Taylor. I'm going to guess that you have seen the video in the link I am sending you if not maybe you heard about it. <http://vimeo.com/41848980>

The video seems to have been taken while the EPA was giving the test results to our neighbors. It also seems that our water/well were quite a topic of discussion. To our knowledge our treatment system works fine and we do not have a well that went bad. For some reason these people seem to think otherwise and also make it seem that they got their information about our water/well from the EPA. My family and I wouldn't think that would have happened. Anyway in the video it seems that the EPA made a video of their own. I wanted to know if a copy of the video made by the EPA could be sent to an attorney for us? The attorney is a very nice woman named Amy Barrette. Amy works for Fulbright and Jaworski LLP and her email address is [abarrette@fulbright.com](mailto:abarrette@fulbright.com). I also want to appologize for the way the EPA was treated in the above video. It was very nice of you to take time out of your day to go and give these people their test results and explain them. It's a shame some people don't seem to have any manors. I know our family was very happy to hear that our water didn't have any issues. Thank you very much for your time.

Thank you again and have a nice wkend.
